

▶▶▶ The Mars is a sleeker kind of sit-on-top that puts a little more performance into your recreational paddling. With a V-shaped hull and sharp entry and exit lines, the Mars offers a quiet, efficient ride. This is an excellent kayak for light touring, exercise, or to develop more advanced paddling skills. Designed with our car-topping handle system, the Mars is also easier to lift onto your vehicle – a real plus after a long day on the water.
