

▶▶▶ The Scrambler is a tried and true sit-on-top in the Ocean Kayak line. If stability, maneuverability, and versatility are priorities, the Scrambler is a “can do” choice. This kayak performs well on flat water because of its molded-in keel, and it rides waves nicely because of its short length. The Scrambler is light, easy to transport, easy to store, and is a great kayak to carry along to any destination near water. It’s the ideal for mid-sized paddlers who enjoy a little bit of everything.
